THE FOLLOWING IS AN EMAIL FROM JOE MAZUR, PRESIDENT OF THE ALL AMERICAN SOAP BOX DERBY SENT TO LOCAL RACE CITIES ON JANUARY 16, 2012. IF YOU HAVE ANY QUESTIONS CONCERNING THESE RULE CHANGES, PLEASE FEEL FREE TO CALL ANTHONY MARSHALL AT 540-649-1507.

SOAP BOX DERBY BOARD APPROVES CHANGES TO FOUR RULES

Dear All-American Soap Box Derby Families,

On Thursday, Jan, 12, 2012, the All-American Soap Box Derby's Board of Directors approved changes to four rules, as our participating race families throughout the world have been requesting.

These changes, which are all effective immediately, are intended to reduce the expense of purchasing new racer components, to encourage participation and to promote fair competition.

The changes are:

Floorboards: The All-American organization is rescinding a change that was to take effect on Aug. 1, 2012, requiring racers to buy new floorboards. Any floorboard will be permitted as long as it has been engraved with the Soap Box Derby logo (a process that began in 1999). [Floorboards need to meet the measurements in the plans.](#)

Axles: Also rescinded is a rule change requiring new axles. In the Stock and Super Stock divisions, axles made in 2000 and newer years are permitted; Masters' car axles must be from 2004 or newer. Year of manufacture is stamped on the axles.

Floorboard coatings: Racers now can coat their floorboards with tung oil in addition to wax. The current rule limits any coating to wax.

Epoxy: [Epoxy is permitted only in the bushing installation. The kingpin needs to be removable at all times.](#)

THE FOLLOWING IS AN EMAIL FROM GEORGE RODENBAUGH, OF THE ALL AMERICAN SOAP BOX DERBY SENT TO LOCAL RACE CITIES ON FEBRUARY 10, 2012. IF YOU HAVE ANY QUESTIONS CONCERNING THESE RULE CHANGES, PLEASE FEEL FREE TO CALL ANTHONY MARSHALL AT 540-649-1507.

Hello Regionals and Assistants:

The following rule changes go into effect immediately:

STOCK CAR: You can now put foam on both sides of the car in the cockpit area. It is to be applied the same as the Super Stock.

SUPER STOCK CAR: You can now fill in the crease around the middle of the car, with primer and paint only. No other material is to be used.

There will (be) an official notice on the AA web site (WWW.AASBD.ORG) by the weekend.

George

Please see www.soapboxderby.org "ABOUT US"/"NEWS" tab for the 12/2/2016 News Release concerning the Finishing of Stock and Super Stock Shells.
