

Our club has a number of used car kits for purchase and assembly, made from restored cars. These weathered cars have been in storage since 2009 and are constructed from 2000 era kits – they need updates to current All-American Soap Box Derby safety and hardware standards, for about half of a new car kit cost. **The range is \$115 to \$335 depending on how many new parts are needed. Wheels included!**

The “Local Championship Race” hosted by New Hampshire Soap Box Derby (NHSBD) brings together participants from across the state to determine who will progress from NH to compete in the All-American SBD during July in Akron, Ohio. As a youth education & development organization, the NHSBD has encouraged boys & girls ages 7 to 20 to build then race in their gravity-powered cars since 1939.

Contributions to restore these cars can be make by check to:

New Hampshire Soap Box Derby, % Dick Behan/Race Director, 118 Grove Street, Dover, NH 03820.

Electronic forms of donation are also available through organizations such as PayPal and WePay, please contact the NHSBD Treasurer by email newhampshire@soapboxderby.org or Facebook [@nhsoapboxderby](https://www.facebook.com/nhsoapboxderby)
