IMPORTANT NEWS

This newsletter is dedicated to the participants of the 10th Sertoma Mile HI Soap Box Derby Championship. It is for them that we need help (both financially and in manpower) to continue to have a viable soap box derby program. There is a lot of work involved in assisting drivers set up their cars to optimum and in setting up and facilitating the many tasks on race days - not to mention the additional fundraising efforts we had to do this year. This year was a struggle and was successful thanks to a few people who stepped up and went beyond what is expected. We recognize that we need to increase the amount of people involved in running the program to be more effective and continue to grow the program.

It has been discussed and agreed that it would be beneficial to gain the support another large service organization to join our existing sponsors. Some possibilities are the Kiwanis, Rotary club, Boys and Girls Clubs, Optimist, etc. We could also look into businesses like dealerships or sporting clubs if we wanted to go the non-charity route. We would want an organization that could support with funding as well as volunteer help on race weekends as well as throughout the year on the projects that are the Mile High Soap Box Derby. We do not want to replace Sertoma, but add to the program -as Sertoma is finding difficulty in providing all of the funds and people support that we need.

The reason that this is the primary content of this newsletter is because we need help in identifying and contacting groups with the proposal. Information is currently being gathered that we will present to a major hopeful sponsor.

If you know of a particular group or person in a club that you think would be interested in invigorating our soap box derby, Buzz is serving as the single point of contact.

P.S. We would call the organization the Mile High Soap Box Derby supported by Fix Auto, Sertoma and the others that we find. Since it will be as big a sponsor as Sertoma, the title will be generic but all sponsors will be more duly noted. We will be able to add more decals to cars, for one. Advertisement in newsletters and on race days will also be available.
