

Inaugural Alumni Weekend Rules

This event will follow the (flat bottom) Master Division Build Plans (July 2026 Edition) with the following exceptions and clarifications:

- Weight Limit – 270 pounds – Max Tail Weight – 5 pounds
- Participants must be 18 years of age or older and have graduated from high school.
- Older steering cable wraps (cars originally built between 2006–2012) will be permitted.
- Foam between the shell and the front (leading) airfoils will be permitted. (both axles)
- Rear (trailing) airfoils are NOT permitted. (both axles)
- The Nose Gauge, Girth, and 3" gauge (bottom of the floorboard to the top of the axle) will be used during inspection.
- If you have a question or concern regarding something on your car, please submit a QCC on our website ahead of the race so the Alumni Race Inspection Team can assist to ensure a smooth inspection process.

All cars will undergo a complete shell-on safety inspection by the Alumni Race Inspection Team prior to competition.

Tools, Repairs & Performance Adjustments

No tools are permitted in the pit area during competition. All repairs must be completed in the designated Repair Area with an official present.

Each participant will receive one **(1) Yellow Card** to use for performance-related adjustments during the race. Once the Yellow Card has been used, no additional performance adjustments will be permitted.

One Final Rule...

This weekend is about having fun, renewing friendships, and supporting the future of the Soap Box Derby.

Can't make Alumni Race Weekend but want to reconnect with the Soap Box Derby community? We'd still love to hear from you! Reach out to alumni@soapboxderby.org to learn about other alumni events, volunteer opportunities, and ways to stay involved.
